

YANCY GARRET SAAC

Customer Service Representative— Telecommunications

Davao City, Philippines | 0945-824-3383 | yancygarretosaac@gmail.com

PROFESSIONAL SUMMARY

Customer service professional with 1 year and 6 months of experience supporting a telecommunications account (Comcast) through Teleperformance, with experience in billing, sales and retention. Skilled at resolving billing disputes, explaining charges and promo expirations clearly, and de-escalating at-risk accounts using tailored retention offers. Consistently balances performance metrics targets with genuine customer needs. Computer Science graduate seeking to bring proven telco expertise to a new organization.

CORE SKILLS

Billing & Account Adjustments • Customer Retention & Save Strategy • De-escalation • Promo & Contract Expiration Handling • CRM / Billing Systems • AHT & CSAT Management • Problem solving • Cross-selling & Upselling • Active Listening • Conflict Resolution • Technical Skills

PROFESSIONAL EXPERIENCE

Customer Service Representative — Billing, Sales & Retention

Teleperformance (Comcast Telco Account) | Jan 2025 – July 2026

- Handled inbound calls for a telecommunications account, resolving billing inquiries, disputes, and account adjustments for a high volume of customers daily.
- Managed retention conversations with customers intending to cancel or downgrade, using tailored offers and plan adjustments to reduce charge while meeting save-rate targets.
- Explained complex billing changes — including promo expirations, proration, and plan upgrades — in clear terms, reducing repeat calls and improving First Call Resolution (FCR).
- Processed account credits, payment arrangements, and adjustments in accordance with company policy and compliance guidelines.
- Maintained strong CSAT and Average Handle Time (AHT) metrics by balancing efficiency with a thorough, customer-first approach.
- Cross-trained across billing and retention queues, allowing flexible coverage during high-volume periods and escalations.

EDUCATION

Bachelor of Science in Computer Science

University of Southern Mindanao — 2023

ADDITIONAL INFORMATION

- Open to relocation / flexible with shifting schedules and account transitions.
- Comfortable with technical troubleshooting concepts from Computer Science background — quick to learn new billing/CRM platforms.
